

The Honorable Thom Tillis
113 Dirksen Senate Office Building
Washington, DC 20510

March 23, 2025

Dear Senator Tillis,

Thank you for your service in Congress. I am one of your constituents and a member of Sardis Presbyterian Church in Charlotte. We are an Earth Care Congregation, and I am writing to urge you to preserve clean energy tax credits as you and your colleagues work on budget reconciliation.

Clean energy tax credits have spurred private investment, driven innovation, and created well-paying jobs across the country, particularly with Republican districts and states being top recipients of Inflation Reduction Act projects and dollars.

Congress should protect these provisions to sustain momentum in America's clean energy leadership.

Sincerely,
